

## **Property & Casualty Insurance**

**Coverage to help when you have a loss of property or liability (lawsuit).**

There are areas of risk to property or liability that can be protected with the following insurance policies:

- Automobile
- Homeowners
- Renter's Insurance
- Umbrella Liability Insurance

However, many people have not addressed other areas, such as:

- Boats
- Motorcycle
- Recreational Vehicles
- Personal Articles Floaters

It is recommended that you consider auditing all insurance, including your life, disability and health insurance, at least every two years to ensure there have been no changes, such as beneficiary designations etc.

Ask us for a referral to an independent property & casualty agency for a quote.
